

MPH-50 Mini Pen type PH meter

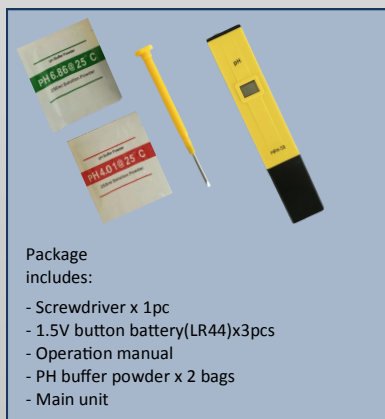

Overview:

MPH-50 is a great handy tool for testing the PH of your pond or aquarium. It's a fast and accurate meter. What you save in buying drop type test kits will more than pay for this meter. And those kits are not usually very accurate. You will never have to guess which color the PH strips are closet to. This device is fast and easy to use. Just dip it in the pond, aquarium or swimming pool and read digital display in just a few seconds. This unit comes in sturdy clear plastic case with calibration screwdriver and user's manual. MPH-50 is ideal for most laboratories, ecological studies and other applications, for water and wastewater treatment, electroplating rinse tanks, drinking water, for hydroponics, aquaculture, aquariums and fish farms and swimming pools.

Features:

- Small size and portable
- Measuring at any time more convenient to use
- Low power consumption
- Wide measurement range
- Manual calibration 2 point

Parameter	Values
